Free webinar on 28 January 2021 ♦ 16:00-17:45 CET

Phase 1 Vaccine Studies in the Times of Covid-19...

COVID has highlighted the importance of Phase 1 trials with vaccines. And yet, only a handful of sponsors, Phase 1 sites and investigators have a thorough understanding of the science, methodology, ethics and logistics required to run such trials. Our New Years EUFEMED webinar will provide you with cutting-edge insight into newest developments around such trials while also learning about the experience of others and providing an opportunity to discuss recommendations.

from 15:40

dial-in

Moderator:

*Jan de Hoon
Center for Clinical Pharmacology, KU Leuven, Belgium*

16:00

Welcome and Introduction

16:10
